

ParkSmart

Transforming Parking Experiences

The Problem

Inefficient parking systems leading to wasted time and fuel

Our Solution

AI-powered smart parking solution for efficient parking experiences

Market Opportunity

TAM: ■5000Cr

SAM: ■1000Cr

SOM: ■200Cr

What We Built

AI-powered smart parking solution for efficient parking experiences

Revenue Model

Recommended: Subscription-based model with transaction fees

Traction & Roadmap

- Idea — Defined business plan and market validation
- Research — Completed market research and competitor analysis
- Prototype — Functional prototype with user feedback
- MVP — Launched MVP with initial customer acquisition

The Team

Team size: Private vehicle owners, daily commuters, corporate employees, and commercial parking operators

Financial Projections

Total Budget: ■15L

Burn Rate: ■150,000/month

Break-even: Month 9

The Ask & Use of Funds

Seeking: ■15L

Timeline: 6-12 months
